## **Classroom Management**

### **Beginning Teacher Assistance Program**

#### **Who Should Attend?**

Session is designed for teachers in their first two years and any teacher who wants to improve daily routines in their classroom. Meets state certification requirement in the Initial Professional Certificate (IPC) for teachers to participate in a Beginning Teacher Assistance Program in their first four years. Missouri NEA partners with Maryville University to offer a quality program that meets the certification requirement.

Activities address how to:

- have a smoothly flowing classroom
- use effective rules/routines/reinforcements
- create individual professional development plans
- deal with difficult behavior
- renew your certification
- improve communication skills

Participants experience strategies and benefit from interacting with other teachers.
